

Solent Area Report - Autumn 2018

The Solent group meets biannually with members from Chichester to Dorchester, Isle of Wight and as far north as Basingstoke. We use our time to listen to guest speakers or company reps and present case studies, as well as using this vital time for networking.

In our region, in the last year we have had the POGP Conference and the team at Chichester organised a recent Urogynaecology Study day.

We have 27 members who regularly attend our meetings. New members are welcome.
